THE YEAR**

**LUNDELL
GX MOD**

50 m² OF WARM GREEN WITH A GOLF SIMULATOR

GX MOD offers you an excellent opportunity to practice and play golf throughout the year. We customize this fully relocatable module to match with the golfsimulator of your choice to make your golf experience as realistic as possible.

Enjoy golf any day in any weather – or even in the middle of the night.

EQUIPMENT

- The module is fully weather proof and relocatable.
- Adjustable feet – no foundation required. A flat and solid surface is all you need.
- This module is well insulated and comes ready with the facade installed.
- All electric cables and installations are done, all you have to do is plug'n'play – literally.
- WC possible as extra equipment.

- The energy efficient GX MOD is equipped with an air heat pump.
- The ceiling and walls of the hitting area are covered with dark acoustic panels.
- The ceiling of the sitting area is decorative panel and the walls are either painted or decorated with wall paper.
- The floor is covered with a green "grass" carpet, the hitting spot with a hitting carpet and the putting area with a high quality putting carpet

SIMULATOR OPTIONS

UNEEKOR EYE XO

- The UNEEKOR EYE XO is an accurate and reliable top class golfsimulator.
- No license costs.

TRACKMAN

- TrackMan is perhaps the most known golfsimulator in the world. High quality and accuracy.

FORESIGHT

- Foresight is a very accurate and popular simulator that can also be moved.

TO WHOM

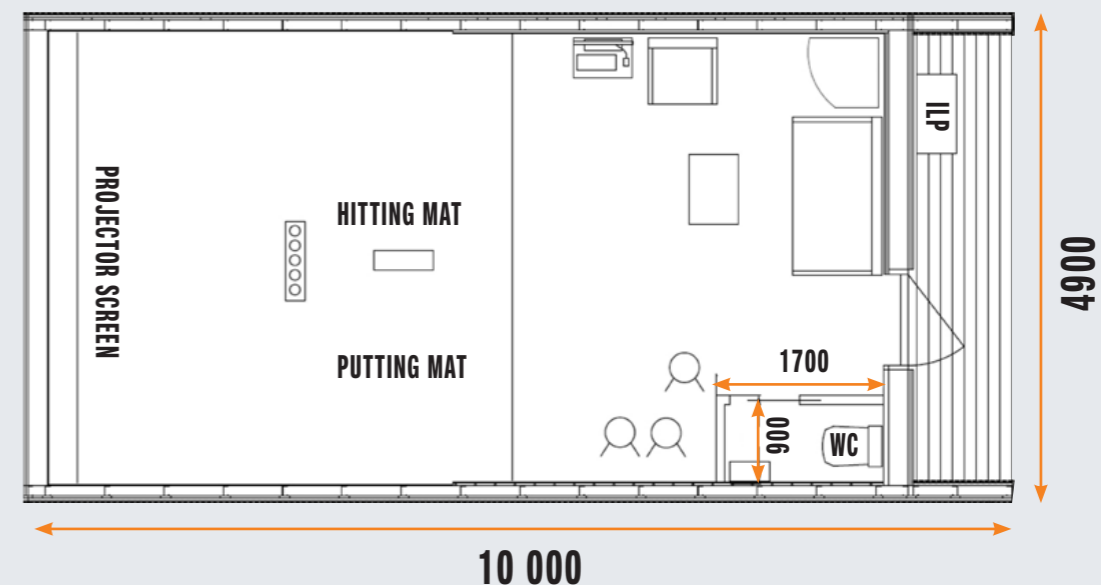

Golf clubs: the golf simulator module gives the golf club an income even during the winter season. It is good for practice, can replace the driving range and is excellent for pro lessons. Golf clubs might not have spaces that are suitable for a golf simulator – GX MOD is the solution!

Hotels and leisure centers: Now guests can enjoy golf without a golf course.

Businesses: The GX MOD offers the possibility of exercise for the employees, but why not also invite your clients over to play! Simulator rental is a profitable business. The turnover for one simulator can be 11 000–12 000 €/month*.

*Estimation based on the average use and hourly cost to play in a simulator in Finland.

LUNDELL GX MOD MEASURES 10 x 5 x 4 m

COMMON PRACTICE

- The buyer defines himself how the module will be used.
- Aulis Lundell Oy can sell code-locks etc. as extra equipment but the buyer himself has to purchase booking programs etc.
- Aulis Lundell Oy is not responsible for repairing after wear and tear, cleaning or maintenance of the module.

PRICE FROM 98.000,00 EUR (+alv 24%)

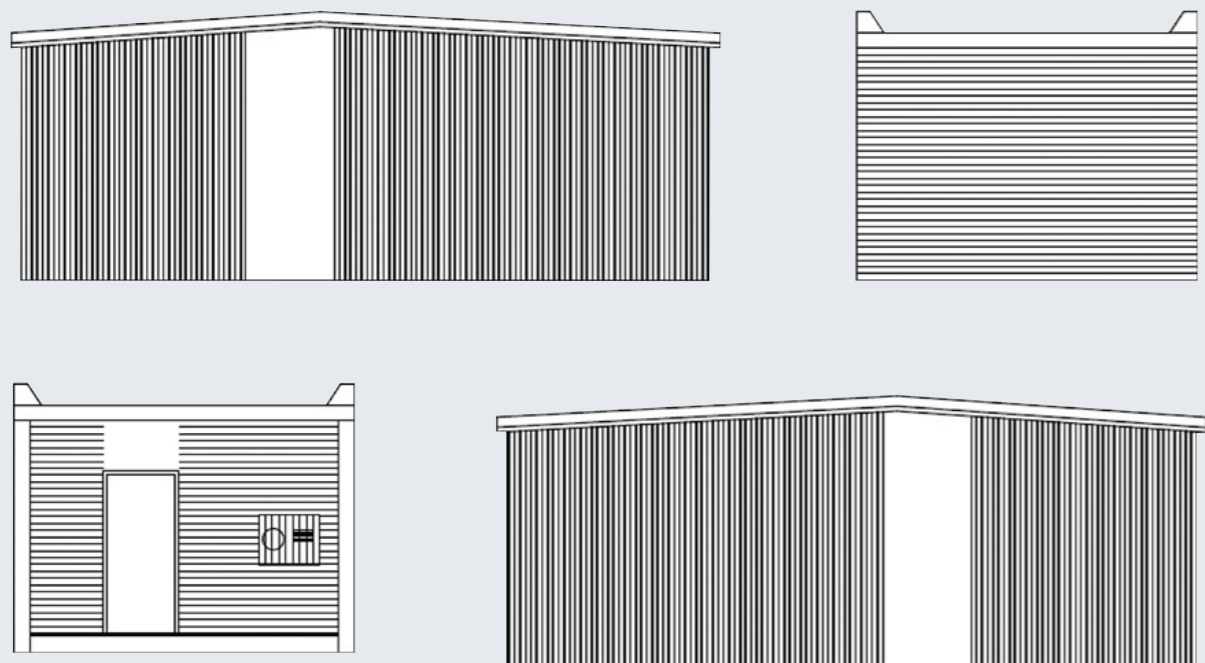

(The price is calculated with an UNEEKOR EYE XO - golf simulator)

The price includes a ready made, relocatable plug'n'play module and the golf simulator itself including its hardware and software (not license costs).
